DETAILED ACTION

Allowable Subject Matter

1. Claims 7-8 and 11-28 are allowed.
2. The following is an examiner's statement of reasons for allowance: This invention deals with a joint and cable structure comprising superconducting cable, long conductor, and a conductor connecting member, wherein the connecting member and the superconducting cable are arranged inside a hollow tube, and wherein an insulating spacer covers a region extending at least from a connected portion of the superconducting cable and said conductor connecting member to a connected portion of the long conductor and the conductor connecting member (Claim 7). This invention also deals with a joint structure comprising a conductor connecting member for connecting a superconducting cable and a further conductor, wherein the connecting member and the superconducting cable are arranged inside a hollow tube, and wherein an insulating spacer covers a region extending at least from a connected portion of the superconducting cable and said conductor connecting member to a connected portion of the long conductor and the conductor connecting member (Claim 20). The above stated claim limitations, in combination with other claim limitations, is not taught or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2831

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments filed December 16, 2005 have been fully considered and they are persuasive. Specifically, the applicant's argument that "none of the prior art of record teaches or suggests the insulating spacer covering a region extending at least from a connected portion of the superconducting cable and said conductor connecting member to a connected portion of the long conductor and the conductor connecting member", is persuasive and therefore the claims have been allowed.
